TEXT OF MESSAGE Sworn May 16, 1994

A Commissioner, etc.

Dear Mr. Musca,

I am writing to inquire about the possibility of the Lanark Township school support taxes paid by myself being transferred over to the Carleton Separate School Board to allow my children to remain in the school they are presently attending.

The situation is as follows. I presently own property in West Carleton (i.e. Dunrobin). My children (age 7 and 5) attend St. Isidore school on March Road and their caregiver is in the village of Dunrobin. My husband and I are in the process of separating however, and I am considering moving with my children into a rental property in Pakenham. I very strongly want my children to remain with their present caregiver as well as attend St. Isidore. I am hoping that some flexibility exists between school boards which would allow children to live in one county and attend school in another. Transportation would not be a problem for the children because I would drop them at my caregivers and a bus would pick them up and take them to school from there.

Your earliest response to this inquiry would be greatly appreciated.

Please contact me at work (613) 592-2122 at your earliest convenience.

Sincerely,

Catherine Ross
